**IMMEDIATE RELEASE**

**PRESS RELEASE**  
**Galvanic Applied Sciences Inc**

Attention: Business/Financial Editors

Calgary, July 25, 2011 Galvanic Applied Sciences Inc. (GAV: TSX-V) announces the following results for its fourth quarter and year ended April 30, 2011:

	Three months ended		Years Ended April 30,	
	April 30,		2011	2010
	2011	2010	2011	2010
	\$	\$	\$	\$
Revenue	<b>2,888,690</b>	2,370,385	<b>11,762,134</b>	11,232,294
Gross Margin	<b>1,071,995</b>	833,758	<b>4,731,709</b>	4,413,766
Net earnings (loss)	<b>199,839</b>	(157,606)	<b>993,843</b>	(206,194)
Net Earnings (loss) per common share	<b>\$0.01</b>	(\$0.01)	<b>\$0.06</b>	(\$0.01)

The turnaround in net earnings from an operating loss to a profit in the fourth quarter of fiscal 2011 and year over year reflects improvements in operating results from both operating segments. In the fourth quarter of the fiscal period consolidated revenues increased by \$519,000 or 18%, consolidated gross margins increased to 37% and net earnings increased to \$200,000 or \$0.01 per common share. For the fiscal year ended April 30, 2011, the Company generated earnings after income taxes of \$934,000 or \$0.06 per common share as compared to a net loss after income taxes of \$206,000 or \$0.01 per common share. This significant year-over-year improvement reflects a 25% increase in Canadian segment revenues, resulting gross margin growth combined with cost improvements in both operating segments.

The Company completed the quarter with working capital of \$7,472,000, including cash of \$3,382,000, and no debt. "I am pleased with the progress that we made during the fiscal year. Both operating segments performed well. Our focus on profitability, cash generation and cost control helped us generate strong earnings in fiscal 2011" says Helen Cornett, CEO. "Our strong balance sheet combined with the continuing improvement in order backlog levels positions us well for another successful year."

Galvanic Applied Sciences Inc. is an innovative electronic technology Company that develops instrumentation and manufactures equipment for the natural gas processing and distribution markets and liquids process markets. Products include analyzers for sulfur and BTU measurement in gases, electronic volume correctors and recorders used in combination with commercial natural gas meters, and tytrators, viscometers, suspended solids and turbidity analyzers for on-line liquid analysis.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of the release.
