GasMicro™
Electronic Volume Corrector (EVC)

GasMicro Introduction
• Electronic Volume Corrector (EVC)
• Electronic Pressure Recorder (EPR)
• Manufactured In & Supported From Calgary, AB
• Backed by 40 Years of Experience in Natural Gas

Rapid Return-On-Investment
• Single Wide-Range Pressure Transducer Reduces Inventory
• Improve Profitability by Reducing Unaccounted For Gas
• Enables Precise Billing for Custody Transfer

Measurement Certainty
• ± 0.05% Accuracy Following AGA Methods
• Reverse Flow & Rocking Compensation
• 12 Year Calibration With 8 Year Data Back-Up
• CSA Div. 1 Measurement Canada Approved
• Solar Power Option for Remote Installations
• -40° to +65°C (-40° to +149°F) Ambient
• 4 Year Comprehensive Warranty
• 4 Year Battery Life

Key Applications
• Natural Gas Custody Transfer
• Natural Gas Distribution / Transmission
• Industrial Plant Energy Management
**Measurement Continues Despite Electronic Issue**

**Pulse Outputs for Odorant Control**

**Remotely Receives Pulse From Turbine Meter**

**Rugged Transducer Handles 2,000 psi**
