ProTech Introduction
• Lead-Acetate Tape Technology for H₂S
• Manufactured In & Supported From Calgary, AB
• Backed by 40 Years of Experience in Natural Gas

Rapid Return-On-Investment
• Never Miss Unexpected Sour Event Spikes
• Guaranteed Contractual Compliance
• Automate Custody Transfer Validation
• Avoid Pipeline “Lock-Out” From Contamination

Measurement Certainty
• 0.005 ppm LDL Every 3 Minutes
• No Cross Interferences for H₂S
• Predictive Alarm in ≤ 20 Seconds
• Wide Over-Range Detection
• 10 Months Data Logging Storage
• CSA Class 1 Div. 2 Certified

Key Applications
Refinery / Petrochemical
• Flare Emissions
• Catalyst Protection
• Fuel Gas

Natural Gas
• Well Head
• Processing Plant Inlet, Outlet, and Flare
• Natural Gas, LNG, and NGL Pipeline
• Custody Transfer
ProTech903™ W
Lead-Acetate Tape Analyzer for H₂S

Extended-Life Tape With No Interferences

Humidifier Provides Faster Response

Large Local Display With LED Indicators

Secure Remote Access With Advanced Diagnostics
ProTech Introduction
• Lead-Acetate Tape Technology for H$_2$S
• Manufactured In & Supported From Calgary, AB
• Backed by 40 Years of Experience in Natural Gas

Rapid Return-On-Investment
• Never Miss Unexpected Sour Event Spikes
• Guaranteed Contractual Compliance
• Automate Custody Transfer Validation
• Avoid Pipeline “Lock-Out” From Contamination

Measurement Certainty
• 0.005 ppm LDL Every 3 Minutes
• No Cross Interferences for H$_2$S
• Predictive Alarm in ≤ 20 Seconds
• Wide Over-Range Detection
• Multi-Stream Up to 4 Channel
• 10 Months Data Logging Storage
• CSA Class 1 Div. 2 Certified

Key Applications
Refinery / Petrochemical
• Flare Emissions
• Catalyst Protection
• Fuel Gas

Natural Gas
• Well Head
• Processing Plant Inlet, Outlet, and Flare
• Natural Gas, LNG, and NGL Pipeline
• Custody Transfer
