ProTech Introduction
• Tape Technology for Gas-Phase Samples
• Manufactured In & Supported From Calgary, AB
• Backed by 40 Years of Experience in Natural Gas

Rapid Return-On-Investment
• Never Miss Unexpected Upset
• Guaranteed Contractual Compliance
• Ensure Product Quality Specifications

Measurement Certainty
• 0.005 ppm LDL Every 3 Minutes
• Predictive Alarm in ≤ 20 Seconds
• 10 Months Data Logging Storage
• CSA Class 1 Div. 2 Certified

Key Applications
Olefins Production
• Catalyst Contamination

Semiconductor Fabs
• Chemical Vapor Deposition

On-Board Calibration
• Phosphine Bottled Cal Gas Not Easily Available
• Permeation Tube Device Eliminates Gas Cylinders
• No Temperature Control Required
ProTech903™ W Tape Analyzer for Phosphine

Extended-Life Tape With No Interferences

Humidifier Provides Faster Response

Large Local Display With LED Indicators

Secure Remote Access With Advanced Diagnostics
ProTech903™ D2
Tape Analyzer for Phosphine
