

AccuSeries Introduction

- Photometric Method for Gas & Liquid Samples
- Manufactured In & Supported From Massachusetts
- Backed by 40 Years of Experience in Tough Applications

Rapid Return-On-Investment

- Identify & Avoid Expensive Process Upsets
- Avoid Human Error From Manual Testing
- Eliminates Hazardous Grab Sampling
- Reduce Costs With Precise Dosing Control
- Optimize Environmental Compliance

Measurement Certainty

- Multi-Stream Up to 8 Channels
- Dual-Wavelength Compensation
- Easy-Access External Cell
- Compatible Wetted Parts Minimize Maintenance

Key Applications

Refinery / Petrochemical

- H₂S in SRU Acid Gas
- SO₂ in Stack Emissions
- Oil in Water

Municipal

- Nitrate in Water Distribution
- COD "Correlation" in Waste Water

Industrial

- Pt Co Color for Ion-Exchange Resin Quality

FPA 4100™

Automatic Stream Switching / Clean / Zero-Span Update

Zone 1 Configuration

Ex II 2G Ex db ia IIB + H₂ T4 Gb

Galvanic Service Support Ensures Installation Success
